Great book! We home school and I wanted something extra to go along with our space studies. This is perfect as it gives just enough extra details and has lots of fun pictures so she can see examples of things.

for my Grandchildren, their mother says they love the stories, super great for all young ages, remember reading to your children will guarantee their success in later life. Even talking or singing will have a beneficial effect

Very flexible, can be used for lots of different classroom activities.
