in [Books > Children's Books > Growing Up & Facts of Life > Health > Diseases](#)

Age Range: 4 - 8 years

Grade Level: Kindergarten - 3

Customer Reviews

This is a wonderful first or second grade science book reader with great pictures and easy to read words.

This is a really understandable book for 2nd and 3rd grade I cannot wait to cover the material!

The book is very detailed and informational- i got it for an education class project and it suits the project well

While we didn't read everything in this book, it does a great job explaining the levels of the rain forest

Good for home schooling. We used this for our habitat study.
