Excellent value, and can keep young children entertained for a few minutes.Now these books are small--but that's kind of the point of these book, I think. They're portable, easy to throw in a briefcase or purse or back of the car, and handy to give to children at the doctor's office waiting room, or in an airport, or on a car trip, or at a restaurant waiting for food, or really, just anywhere where you want to have a short educational (or semi-educational) activity.And I gotta admit, I like that this is an "un-plugged" option. Not on a phone or tablet or screen--just a good old-fashioned book with simple activities, vivid illustrations, and things to *do*--that is, an active, tactile experience--even if the activities are quite simple (like peeling stickers).We don't leave home without a few of these. (Just be prepared, if you haven't ordered these before, for a small booklet, not a *book* book.)

These stickers are SO CUTE! They're nicely colored, varied (flowers, fruit, bugs, critters) and altogether really nice. I'd recommend this to anyone who was looking for something to give to a little kid who is fond of the outdoors. Any little gardener would love it!

Wonderful Dover sticker book: my 2-year-old granddaughter likes to water plants, so she was thrilled! The books are inexpensive, the stickers are colorful and fun, and all peel off easily.

Our 3 year old granddaughter loves the pictures but these books are so small that you can't really fit all the reusable stickers on the pages.

Love the Dover books for price point and hard cover - great for car trips and plane trips.
