Those Shoes

Synopsis

"In this witty, wise picture book, Boelts presents a kid's-eye view of a consumer fad that rages through school at gale force." — Bulletin of the Center for Children's Books (starred review) All Jeremy wants is a pair of those shoes, the ones everyone at school seems to be wearing. Though Jeremy's grandma says they don't have room for "want," just "need," when his old shoes fall apart at school, he is more determined than ever to have those shoes, even a thrift-shop pair that are much too small. But sore feet aren't much fun, and Jeremy soon sees that the things he has — warm boots, a loving grandma, and the chance to help a friend — are worth more than the things he wants.

Book Information

Lexile Measure: 680L (What's this?)

Paperback: 40 pages

Publisher: Candlewick; Reprint edition (June 9, 2009)

Language: English

ISBN-10: 0763642843

ISBN-13: 978-0763642846

Product Dimensions: 10.3 x 0.2 x 9.9 inches

Age Range: 5 - 8 years

Grade Level: Kindergarten - 3

Customer Reviews

Everyone at school has a certain pair of shoes (Chuck Taylor style hi-cut sneakers) and Jeremy wants them too. He just can't afford them. His sneakers fall apart and he has to go to the guidance counselor's office to pick new ones from a bin - embarrassing and disappointing. He finds a pair of the coveted shoes at a thrift store and buys them although they are really too small for him and they blister his feet. After a short while he gives them to another boy in his class (whose soles of his

shoes are taped together) who truly fits into them. Empathy is the big word here. Some lucky children may not understand about the scene in the guidance counselor's office. Someone can't afford shoes? Other children will come to understand that they are not alone in their needs. This is a book about sharing that reaches out especially to boys! Kicks are important to them. Everyone I have shared this book with has been touched by it. I highly recommend it for all elementary school age children.

I have 4 kids. The oldest three boys are 9, 6, and 4. I read this to them last night and I was really moved. We discussed the book and they really heard the message that you can't always get everything you want and that there is a very big difference between a want and a need. Being so close to Christmas it was a great conversation opener about what they want for Christmas and what they can reasonably expect. We also discussed and shared times when other people had what we wanted, times when we were envious, and also how much better it feels to be generous and kind! I struggle all the time as a parent to impress upon my children these very ideas and this book brought it home so easily! READ THIS BOOK! Also, I love how the boy lives with his grandmother but it not overemphasized and there is no discussion on why his family consists of just him and her. That is just how real life is sometimes and I appreciate that realistic fact being inserted!

Just about every boy at school seemed to be wearing those black high-tops with two white stripes, and Jeremy wanted a pair also. Unfortunately Grandma remained firm about only paying for needs, not wants, and Jeremy needed a new pair of winter boots. To add insult to injury, when one of Jeremy's shoes fell apart at school, the only replacement available from the guidance counselor's supply box was a pair of children's Velcro sneakers with a cartoon animal on the side. Even Jeremy's idea of buying his dream high-tops at a local thrift shop backfired when the one pair in stock fit so poorly that they hurt his feet. Little did Jeremy realize that those thrift-store high-tops held the key to a deeper understanding of generosity and friendship. This clever book contains a powerful lesson about differentiating between wants and needs in the face of tight budget constraints. At the same time, the subtle text and expressive illustrations communicate clearly a child's desire to conform. At a time when expensive shoes have become a high-status consumption good, *Those Shoes* comes out a winner for telling an appealing story to which readers across age groups can relate.

This is one of my top 10 favorite books of the school year. It will be a staple in my school counseling

curriculum. It's really rare to find such a profound read about the spirit of giving. We have a generation of kids that sometimes seems more concerned about the latest iPhone, the latest fashion trend, or how many facebook friends they have rather than things that have true value like family or friends. Reading *Those Shoes* got kids thinking about this. We had a thought provoking conversation about listening to our heart - even when we don't want to....translation - Do The Right Thing! I wanted the kids to understand when we do something kind for another person - sometimes the reward is just feeling joy. Wow, did they hear this loud and clear through the story. The most satisfying thing Jeremey did was for someone else, not for himself. Another big teaching moment - wants vs. needs. We made a whole T chart list of how these two things are different and how it can impact who we truly want to grow up to be. Society is pushing so many material things on kids it's easy and tempting to lose your way and get sucked into the external satisfactions of life. Gratitude. Thank goodness for grandmas! She had a perfect little role in the story. Students acknowledged how adults have 'experience' that kids do not yet have. Most times, adults really do know best! Listening to our hearts and doing the right thing is SO important, lets remind children early on before the walls go up and the earphones go on. I don't want kids plugging into iPods - I want them to plug into us. I read *Those Shoes* to all of the K-3 grades. One of our teachers decided to do a language arts lesson after listening to my lesson. It's good stuff. Students need more literature like this that pushes such an overwhelming message of kindness and generosity.

This is a magical book that always works for school-aged kids, even the ones that think they are too cool to have someone read to them. When I read it to a group, I ask, "Have you ever not gotten what you wanted, even if you thought you really needed it? How did that make you feel?" Even the "privileged" kids can relate. Without being syrupy, this is the story of a kid who is just getting by; he wants the cool shoes the other kids have and knows he can never have them. He finds them--sort of, they are too small--in a consignment shop and manages to buy them, desperate to fit in. Meanwhile, the only kid who didn't laugh at him a few days ago doesn't have any shoes, either. Without giving too much away, I'll say the story ends with compassion and dignity. It's also miraculously brief; every word is important. Since I am a librarian, I often have parents or teachers asking me for books on friendship. I've never seen one as well-written as this, and the illustrations round out the story perfectly.
