Customer Reviews

Earlier, I commented on the review that described this book as "not likely to entertain even the smallest child." I've since purchased this book for our two-year-old boy. He loves it, as he does the first Fred and Ted one. When reading, he learns about camping equipment, colors, actions, relationships, and more. Although he was just beginning to understand the concept of "pretend play," he could easily understand that our boat was like Fred's and Ted's boat and we could pretend to paddle. As another reviewer implied, the point isn't really whether or not we adults like it. It's whether or not our kids benefit from it. Obviously, kids have different tastes. Our guy has no interest

in some books/toys about which other parents rave, no matter how hard I try to make them engaging. That's just him. He does like this book, however, as do I.

My son loves outdoors and camping, and he loves this book (at ages 2/3, he also laughs out loud at the ending pages). The pictures are cute, accessible, and humorous. The characters are engaging enough and it's a quick read (when you're reading it for the 200th time!). It helps illustrate the concept of opposites, and sharing in camping and outdoor activity at a beginner reading level, I think this is a good addition to our library.

When I purchased it I was thinking it was by P.D. Eastman. We love his books! This one is by Peter Eastman (P.D.'s son). The book was not written nearly as well as the old P.D. Eastman books we have. Did not flow well for a read aloud. It is okay, and I love the characters, but if I would have seen it first I never would have purchased it.

I ordered this book for my 4 year old son because he has another Ted and Fred book and absolutely loves it. So much that he has it memorized word for word. I wanted to get him another book to read that he would enjoy just as much! Just like I figured, Fred and Ted go camping is another book he loves to have read to him! These books are great for children learning to read as well as toddlers that enjoy being read to. The word choices draw in their attention and gets them to rhyming and learning sounds and colors. I would recommend this book to other parents! These books have become favorites in our house!

When I received the book, the corner was torn a little bit. I am using it for my son's first birthday party (camping theme) so that people can write little notes in it for him. I do not really care that the corner was torn because I know my son will just end up tearing it up anyway probably and it makes it look like I've had the book for a little while. Super cute book though!

At 3 years old my granddaughter is beginning to read. We're pretty sure it's from memory but the length of the Fred and Ted books makes it easier for her. I'm even thinking of buying a set for her 3 year old and 1 year old cousins.

My 2-year old loves Big Dog, Little Dog so I was very excited to find this book. It is just as cute as the original. I hope Peter Eastman will do more with Fred & Ted!

This book is rated as "very good" condition which I have found usually means NO writing inside the book. This one has writing (scribbling) in front inside and back inside. I would rate it as "acceptable" not "very good".
