Paperboy is a coming-of-age novel. It takes place in 1959 and focuses on a young boy with a huge problem. He stutters. And believe me, when you stutter, nothing else much matters. The majority of your being is focused on trying to be "normal." Now, before you start throwing things at a virtual me because of my review title, I've had a stutter since I was in elementary school -- this was back in the late 1970s. One important technique that I used -- just like in Paperboy -- was to place a soft "hiss" before difficult words (I was more a "blocker" than a "stutterer"). Book, because of the hard B sound, would cause my mouth to freeze up (like a "closed fist", says the main character in Paperboy) and putting a soft "s" sound in front of it allowed me to force the word out. If the hiss didn't work, I'd often change the word entirely -- another technique often used by stutterers. For example, using the word "Story" instead of "Book." Story, after all, starts with a soft S sound. Much easier! (And much less panic provoking!) Like Little Man (the main character's nickname in the book -- and nicknames are important because they often take the place of hard-to-pronounce real names), I was in speech therapy and learned many ways to compensate for my stutter, though if I was faced with reading out loud (darned teachers who loved round-Robin reading), giving speeches, or talking to people in general, I would often panic. Freeze up. And my speech problem would be all the more severe. Reading this book was almost reading about my own life. No, I didn't play baseball or deliver papers, but I could relate to every single stuttering-related issue faced by Little Man.

A strong setting takes a run of the mill novel and raises it up. This novel is aptly titled, because in reading it, one truly gets what it's like to be a paperboy. The boy (unnamed throughout most of the novel) is taking over his friend's paper route while he's away for the summer, so as he learns the ropes, so does the reader. However, this paperboy has to struggle with something that others probably do not -- his stutter. So talking to the customers and asking for payment is a

challenge. However, at 11, he's at the time in his life when he's going from being a little boy to entering into adolescence which brings more awkwardness, but also more determination and pride. He already knows that he's one of the best baseball players around, but he wants to overcome the barriers that stuttering has put in his way. The other strong setting is the place -- 1959 Memphis. That means that while his parents go out to dinner parties, he is cared for by his African American housekeeper/nanny Mam (it seems as if 50's housewives did a lot of socializing, but perhaps I'm wrong). Mam gives him confidence. A customer on his route who takes the time to talk, listen, and ask questions also helps him figure out who he wants to be. The novel is great on so many levels -- a great cover, a great premise, lots of heart -- that by the time I got to the end, I forgot the bang that started it all. The first sentence: "I'm typing about the stabbing for a good reason. I can't talk. Without stuttering." What a hook! One can't forget that, but the story diverged from that event immediately, only coming back around to it in the end. CONTENT NOTE: I would say this is a book for older middle grade readers, at least 5th and up. There is some swearing.
