Language: English

ISBN-10: 1682128903

ISBN-13: 978-1682128909

Product Dimensions: 8.5 x 0.1 x 8.5 inches

Shipping Weight: 4 ounces (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars [See all reviews](#) (83 customer reviews)

Best Sellers Rank: #1,415,131 in Books (See Top 100 in Books) #27 in [Books > Children's Books > Education & Reference > History > Australia & Oceania](#)

Customer Reviews

Even though I am an adult I love reading educational kids' books. When I saw this free for my Kindle I knew I had to read it. I have read several other Speedy Publishing books and have enjoyed them. This goes through what the Outback is in Australia and then points of interest in the Outback. There is a description of each place with a picture on one page and another nice picture on the following page of the same place. The places that are highlighted are the Flinders Ranges, Broken Hill (New South Wales), Coober Pedy, Kimberley, Kakadu National Park, Nullarbor Plain, and Uluru. I do not really know that much about Australia so almost all of these places were new to me, but I found it very interesting. This was more for older children. I think it would be kind of boring for younger children, but the pictures may keep them interested. I would recommend this book for anyone of any age. I received this product at discount for my honest testing and review. I am under no obligation to provide a positive review and receive no incentives or rewards for doing so. My aim is to highlight features and drawbacks that I would want to know about as a buyer, not hype the product for the manufacturer. My remarks are sincere and my own. While it is true that many items are received at discounted rates or complimentary, my reviews are completely honest and are my personal experiences with the product. Again, it is just my opinion, your own opinion might vary. I received no

monetary compensation and I am not required to give a good review.

Adding my review of Let's Explore the Australian Outback: Australia Travel Guide for Kids as an ebook, so bare with me. I downloaded this instantly from after purchase, to my cell phone to use with my free kindle app on phone. Unfortunately, my actual Kindle Fire was having difficulties and I could not download to it. So my review is based on using a Samsung Galaxy S5 phone screen. This is a well written short book on Australia. The paragraphs are short and to the point, making it an easy read for all ages. Children can understand the text in this ebook easily. It is interesting information, making learning about Australia fun and exciting. The pictures used in this book are actual photographs of Australia. Each photo is highly detailed and of great quality. The photos help the information link together for the reader. I enjoyed looking at each photograph while reading the information provided. Overall, this book flows well, and contains a great deal of information about Australia and its cities. The photos in this book are beautiful and interesting to look at. I enjoyed reading this book, and recommend it to anyone to read and learn all about Australia. I received this ebook for free or a discounted price to offer my honest opinion concerning this ebook. My review is based on my personal trial of this ebook. I understand the importance of an honest review to help other consumers make an educated purchase. I hope you have found my review helpful.

Kids books This is a great book; I highly recommend it if you like this type of e-book I have purchased from this seller before and I find him or her to be fast to respond and clear up any complication quickly if any arise at the time of your purchase I love to read this book with my daughter, or she reads it to me while we are in the car, as she thinks she is my co-pilot from the back seat I highly recommend this item and the seller, they are both great. DISCLAIMER: I received this product at a discount or free for my honest and unbiased review. My reviews are my opinions of the product received and just my opinion. Everyone is different and could have a different opinion of a product. Just because I did receive this item at a discount or for free, it did not alter my review of the item. I do not receive any monetary payment for my reviews, and I always keep them honest. Which means I will continue getting products at discounted price whether I write a good or bad review. So no need to worry whether or not my review is genuine, because it is. If after my initial review something changes I DO go back and update the reviews, for good or bad reasons!

Cool little book here. I would say it is for the reading ages of 5-9. I read this with my son who is 8

and he enjoyed it. Nice pictures and facts to go along with them. Easy enough for him to read and the pictures were of good quality. It took about 20 minutes to read, helping him with any difficult words, which wasn't many. Overall, a good book that kept him interested in reading, and for a young boy that doesn't happen to often. I received this product at a discount for my honest and unbiased review. The discount has not influenced or impacted my judgement of this product. I take this seriously and include my own opinion and experience with each product. I am in no way required by the seller to leave positive remarks about their product. If you have found my product review to be helpful, please thumbs up this review. This will make it easier for others to find this review so they may be helped as well. You certainly don't have to, I don't get anything from it, but I get a good feeling that I helped someone. If you have any questions about my experience with this product, please leave me a comment. Thank you for taking the time to read my review
