You'll be surprised by how "meaty" this short trainer's book is. It's not just head knowledge, it's training for the Prophetic "Ministry" - a training where you can turn and minister unto the Lord. I guarantee that you'll be edified and receive fresh revelation as you study Kris' teaching. All you need is a humble, hungry heart and a willingness to learn from someone who actually lives out what they preach. Kris adds encounter stories of the impact of the spirit of prophecy upon his church, school, and ministry at Bethel Church in Redding, CA. They're truly incredible and encouraging. There's also a Life Application section at the end of each chapter so that your training doesn't just end with this book but it can be applied to your life (from dreams to hearing God's voice to discerning spirits to seeing the "gold" in people...)Some of my friends are attending the Bethel School of Supernatural Ministry and have reported great transformations in their lives as they take their training out into the streets (it's just like when Jesus sent out the disciples two-by-two after years of hiddenness and just listening and learning from Him). Our small group is currently half way done with this book and are preparing to apply it in our community. It's time to be AWAKENED -- Don't you want to be a part of what God has intended for this generation? I sure do.

If you are looking for a simple and basic Bible Study on the Prophetic Ministry than this is a good place to start. Kris Vulloton touches the very basics in this book and gives an overview of what the prophetic is all about. If you know nothing about the prophetic than get this Bible Study. If you are looking for more indepth and "meat" you should look for another book by Kris.

Pursue love, yet desire earnestly spiritual gifts, but especially that you may prophesy (1 Corinthians 14:1-3). I really desire the gift of prophesy. Kris Vallotton has walked in this gift most of his life and has communicated it in a very practical and understanding way in this book. If you, too, desire this gift then this book would definitely be a good choice. Each chapter ends with questions to ponder and life applications to try/practise. Very helpful and inspiring.

As a Christian believer I am interested in discovering everything Jesus has for us. God wants all Christian believers to prophesy, yet a large number of Christians don't know much about the prophetic ministry today or their knowledge is not clear enough to live a prophetic lifestyle and bring a blessing to the local Church.I wanted to know not only about the prophetic but also how I can actually do what God wants me to do. I read this book by Kris Vallotton--Basic Training for the Prophetic Ministry. I read it on Thanksgiving evening(2008) and could not put it down for many hours--I finished it in one setting. I learnt lots of things which I believe are not only useful for those

who feel a calling in the prophetic ministry but also every Christian in the world today. I want to read this book at least three times. I would recommend all Pastors to read this book so that they can build congregations where hearing God's voice becomes the norm and prophesying is expected and practiced. You will begin to see men and women with new eyes. You will fall in love with the prophetic. If ever you were disappointed by "prophetic" people or prophetic words, here's your chance to encounter an authentic prophetic voice. You will weep tears of joy as you gain new insights and your life changes in very short time. Don't fall short of your Divinely appointed prophetic destiny !

This definitely is a book for those who are new to their gifting or want to understand the operation of the prophetic. Well written and scripturally supported. This book would also be great for small group study or an entire church.

This book has brought AWESOME insight into my understanding of living in a prophetic culture. A culture based on honor and a TRUE Kingdom mindset towards prophecy. It is a VERY enlightening read and it is geared in a language and mentality that I understood not only in my mind, but also resonated well with my heart and soul. I highly recommend this book to ANYONE who is searching for a greater truth and understanding of newly awakening generation.

I purchased this book desiring to better understand how to get better at prophesying. As the title states this book provides "Basic Training" for applying the gifting in your life. And that's what the book is: a great overview on what prophecy is and isn't, what are words of knowledge, false prophets, etc. I particularly liked the final chapter on practicing prophecy. Guess what? We need to practice it just like any gift and there will be moments of discomfort in doing this, just like there is with improving yourself in any area of your life. This last chapter also gives 6 great practical suggestions for practicing prophecy every day, which I plan to put into action, starting today. If you sense a calling to prophesy then this book is a really good start. It doesn't take long to read either. I'd love to know a useful more advanced book, if any readers may know of one.
