Wind Power (Energy For Today)

Synopsis

A waving flag, blowing leaves, a kite soaring through the sky all are moved by wind power. Wind is also our fast-growing source of energy. Find out how wind forms and the different ways we may use it in the future.

Customer Reviews

Very cute and informative book about wind power. I bought it for my 10-year-old son for his wind energy product. It is a somewhat small book, but there is a lot of great information in the book! A great value!
