Sue Miller brings her great editorial chops to whatisorange.com. She helps create and edit children's ministry curriculum but before she became orange, she served as the Children's Minister at Willow Creek Church. It's one of the largest churches in North America and they have a bunch of kids. Sue has an infectious way of bringing adults in and really building them up to help them give to kids in a great way. She's had people begging her to be a part of the children's ministry. If you're new in children's ministry, this book is a must have. In the same way she builds her team, her writing strengthens the reading and creates confidence for the next steps. She even includes training ideas for Children's ministers to help them train their leaders too.

I bought this book when I was newly appointed to direct our children's ministry and didn't know what I was doing. The book gave me so many ideas about what children's ministry can and ought to look like!

I bought this book used, and it came in the condition it was labeled as. It is a good book for anyone

involved in Children's Ministry or any church ministry with a (or looking to have a) children's program.

I highly recommend this book for children's pastors, volunteers, parents, and anyone else actively involved in children's ministry. I just started implementing Willow Creek's model as described in the book and can already see the enthusiasm in the children that attend.

I liked this Children's ministry book and found that it gave good tips on keeping your ministry hour interesting for kids. I would recommend it to children's ministry leaders.

This is my second time for reading this book. My first time was when it initially came out and the truths were new and fresh. Now, many years later in ministry, I am re-reading it in order to mentor a Sr. in High School. I thought God led me to this book for her benefit and now I'm finding out it is more for MY benefit. It has been a great reminder of the essentials for ministry to children.

If you work in a children's ministry, please read this book. It is great for developing a strategy, training workers, and clarifying the vision of the ministry.

This is a great book full of great ideas! Every children's ministry professional should read it and share it with their teams!
