# Candy Experiments

## Synopsis

Brilliant use of Valentine's, Easter, Halloween, and other holiday candy! Fun, colorful, and full of surprises, Candy Experiments will have kids happily pouring their candy down the drain and learning some basic science along the way. Candy is more than a sugary snack. With candy, you can become a scientific detective. You can test candy for secret ingredients, peel the skin off candy corn, or float an M&M's. You can spread candy dyes into rainbows, or pour rainbow layers of colored water. You'll learn how to turn candy into crystals, sink marshmallows, float taffy, or send soda spouting skyward. You can even make your own lightning. Candy Experiments teaches kids a new use for their candy. As children try eye-popping experiments, such as growing enormous gummy worms and turning cotton candy into slime, they'll also be learning science. Best of all, they'll willingly pour their candy down the drain. Candy Experiments contains 70 science experiments, 29 of which have never been previously published. Chapter themes include secret ingredients, blow it up, sink and float, squash it, and other fun experiments about color, density, and heat. The book is written for children between the ages of 7 and 10, though older and younger ages will enjoy it as well. Each experiment includes basic explanations of the relevant science, such as how cotton candy sucks up water because of capillary action, how Pixy Stix cool water because of an endothermic reaction, and how gummy worms grow enormous because of the water-entangling properties.

## Book Information

Series: Candy Experiments (Book 1)

Paperback: 160 pages

Publisher: Andrews McMeel Publishing (January 1, 2013)

Language: English

ISBN-10: 1449418368

ISBN-13: 978-1449418366

Product Dimensions: 6 x 0.4 x 8.9 inches

Shipping Weight: 13.6 ounces (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars See all reviews (42 customer reviews)

Best Sellers Rank: #94,309 in Books (See Top 100 in Books) #16 in Books > Children's Books > Education & Reference > Science Studies > Chemistry #59 in Books > Children's Books > Science, Nature & How It Works > Experiments & Projects #123 in Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Do-It-Yourself

Age Range: 7 - 10 years

Grade Level: 2 - 5

## Customer Reviews

Great for homeschoolers, teachers & youth leaders. It was a fun way to incorporate science into learning! You can tell the author thought about what would be helpful in such a book. Included in the experiments are: Bright colorful pages and font \* Easy to read instructions \* Experiments list approximate time required \* Experiments list skill level \* No experiments require turning the page \* All materials are readily accessible \* All experiments have a write up describing chemically & physically what is happening and why Contents include: INTRODUCTION experiment tips SECRET INGREDIENTS \* sour candy bubble test \* floating oil test \* sour candy color test \* oil spot test \* chocolate bloom \* skin the candy \* sugar bloom \* secret air bubbles \* find hidden candy \* snap crackle pop rocks \* how much pop in pop rocks \* COLOR make your own colors with candy \* red & yellow make orange ... or did they?
